WHEAT AGAIN JUMPS

Wild Excitement Characterized the
Trading at Chicago.

EFFECT OF LIVERPOOL ADVICES

Violent Fluctuations in the Price
Occurred.

BULLS WERE AMAZED

CHICAGO, October 19.—Wheat made a record-breaking jump today. The December option, which closed Saturday at 75-5/8, opened this morning at 76-1/2, an advance of 3-1/4. The wildest excitement characterized the trading. There was talk of possible failures as a result of the unparalleled advance. After a momentary reaction to 76, December wheat soon went beyond the top figures at the opening, touching as high as 79-1/4 several times within the first fifteen minutes of business.

Just before 10 a. m. the market took a sudden plunge downward and fell to 78-1/2, reacting later to 78-3/4.

Shortly after 10 a. m. the price receded to 78-1/4, but at that point the market whirled sharply upward again, and within a few minutes advanced a full cent to 79-1/4. During the frenzy at the opening some few trades were made as high as 79-1/2, while sales at the same moment in other parts of the pit were at different figures ranging all about 79-1/2 to 79-3/4.

About 10:30 a. m. the price was 78-3/4. At this point another 1-cent advance was recorded with amazing rapidity. This time the advance was placed the figures on the tape in the brokers' offices the quotation had leaped to 79-1/4. This time the advance was placed the figures on the tape in the brokers' offices the quotation had leaped to 79-1/4. This time the advance was placed the figures on the tape in the brokers' offices the quotation had leaped to 79-1/4.

Caused by Cable Advances.

The advance today was due to the Liverpool cables, which reported that market prices had risen 1-1/2 to 2-1/2 higher. No such jump has been experienced in this market for years. In the first half hour's trading was around 79 cents. Tremendous lines were dumped on the market and that the price was 79-1/4.

All the news was not bullish by any means. Against receipts were heavy, 1,142 cars, against 1,887 last year, and unofficial world's supply was liberal. The cables, however, were the pre-eminent influence, and trading was enormous, with fluctuations violent and frequent.

Corn opened strong, though trade receipts were large, but were offset by strong cables from Liverpool, which reported a cent higher at 30-1/2, advanced to 31-1/2 and reacted to 30-3/4. Oats were active and firm, with other grains. May opened about 15 cents higher at 22-1/2, advanced to 23-1/2 and reacted to 23-1/4.

Wheat was excited and moderately higher, but heavy realizing and selling by packers caused a reaction. January pork 8-1/2, January lard 11-1/2, and declined to 8-1/4, January lard 11-1/2, and declined to 8-1/4, January lard 11-1/2, and declined to 8-1/4.

A Gradual Relapse.

Between 11 o'clock and 12:15 p. m. there was a gradual relapse. From 79, December slumped to 77-3/4. In the next half hour it was again ascending the ladder, and reached 78-5/8, but during the succeeding few minutes it returned to the down grade, and at 2 p. m. it was 77-3/4. The decline continued during the final quarter of the day. Just before the market closed for the day was 77-3/8 bid, 1-1/2 cent higher than the close on Saturday.

Fluctuations in the market were too great, and the trade too active to permit of intelligent understanding of the personnel of the market. But in general way floor traders realized that Chicago held a big line through traders.

Logan and S. Dupee were heavy sellers, to such an extent, in fact, as to cause one of the frequent and violent breaks which characterized the trading. Baldwin also sold heavily, as did Bartlett.

On the other hand, Armour was a buyer. Milne, Bodman & Co. and Schwartz, Dupee & Co. took in large lines. Nicol bought and sold heavily in the last hour's business.

A big surprise was occasioned by the Indian shipments of 72,000 bushels. This was unexpected and seemed to indicate that the serious famine in India which had been exaggerated. There was a lot of selling done on it, and it was with this as a factor that the market closed.

The December option, which closed Saturday at 78-5/8, opened today at 80-1/2, an advance of 1-3/4. Following this came a cent reaction, with a let up in trading. Corn and oats shared wheat's advance, both scoring sharp rises over Saturday's closing.

At noon the tremendous strain of excitement in wheat exhausted itself and the cessation of the trading and the great feature of the morning. The local feeling was still very much unsettled, however, and traders on every hand were alert to catch the least indication of a change in the market symptoms.

The contributed not a little to the reaction in prices. As an evidence of the market's activity it was estimated that up to 1 o'clock over 12,000,000 bushels had been traded in. There have been many entire days in past months when sales did not average 2,000,000 or 3,000,000.

COMPLETED THEIR EXAMINATION.

The Experts of the Venezuelan Commission.

THE HAGUE, Holland, October 19.—Prof. Burr and Dr. Haan, the experts of the United States Venezuelan commission who have been in Europe for some time studying the archives of London, Madrid and The Hague, for the purpose of assisting the commission in its investigation of the boundary dispute between Venezuela and Great Britain, have completed their work. Prof. Burr will sail for New York from Liverpool Wednesday, while Dr. Haan, his associate will leave Rotterdam for New York by the Spandarm this week.

SOME SILVER LEADERS

Their Attitude Causing the Campaign Managers No Little Uneasiness.

Two Virginia Senators, John R. McLean and Mitchell of Wisconsin Apparently Lukewarm.

The attitude of certain silver leaders for some weeks past has given the managers of the silver campaign no little uneasiness. There has been a haunting fear of lukewarmness on their part. Their devotion to the silver issue has not been doubted, but it has seemed strange that they should not enter with more zeal into the fight.

The Virginia Senators.

The names of the two Virginia Senators are on the list. Senator Martin, it is true, is a new convert. He went over to that side only last year. A good deal has been expected of him in this campaign, but so far, he has not shown in it at all. His name has scarcely appeared in print since the holding of the Chicago convention.

Senator Daniel, who presided at Chicago, sailed soon afterward for Europe. But he returned home in September. He has just been heard from on the stump, with only two weeks of the campaign remaining. He comes out now against that feature of the campaign upon which Gov. Altgeld and his friends are relying so much to his help. He justifies the action of Mr. Cleveland in dealing with the Debs strike. He has no objection to the middle states are concerned the breaking of his silence by Mr. Daniel may do more harm than good.

Mr. John R. McLean.

The claims of democratic strength in Ohio have seemed to consist with the failure of John R. McLean to appear on the scene and take charge of the campaign in person. Mr. McLean is the most potent man among the silver buckeyes. He has wealth, political experience and he controls the party machinery in the state. The silver men have been waiting for his coming, but he has not come. He has kept up a steady fire through his Cincinnati newspaper, but his personal presence, it is contended, would have been more valuable to the cause. They have not entirely abandoned hope of seeing Mr. McLean in Ohio before the fight is over, but November is so near that it is not likely he will come to Ohio.

Some Explanations.

There has been some speculation as to what the explanation is in cases like these. One opinion expressed is that the broader line of the campaign has been conducted have not been altogether acceptable. Men who believe in silver, or who are willing for the party's sake to accept silver, are not in sympathy with the attacks on established institutions which have characterized so many campaign utterances. Senator Martin is a lawyer prominently identified with the progress of the silver cause. He is a leading counsel for several large companies, and it is not thought possible that he can approve of the war that agitators have been making on railroads and the name of democracy. Senator Daniel is a lawyer of prominence, and a man of wide reading, and of much dignity, and it is not thought possible that he can approve of the war that agitators have been making on railroads and the name of democracy.

Mr. McLean and Senator Mitchell are

both men of property and influential business connections. It has been strange enough to many to observe them in the Bryan camp. It is seriously doubted if they endorse all that is being done by the coalition force to put Mr. Bryan in the White House. They have made no public statement to such extreme appeals as are being made to class prejudices, and to such denunciation of property rights as are being delivered in the middle states and throughout the northwest.

A Pertinent Question.

And the question comes up: If this sort of feeling explains the apparent lack of push and fight in these men, all of whom are good democrats, how much further does it extend in the party? How many men are to be found throughout the country who wish silver well, and who may give their own votes to the coalition ticket, but who are making no strenuous efforts to get the ticket elected?

MGR. MARTINELLI RETURNS.

He Attended the Farewell Reception at Philadelphia, Pa., October 19.—The Most Rev. Sebastian Martinelli, papal delegate to the United States, left this morning for Washington, which city he left last week to attend the farewell reception to Cardinal Satolli in New York. Monsignor Martinelli came to Villa Nova, Pa., near here, Saturday, to pay a brief visit to the "Mother House" of this country, and of the Hermits of St. Augustine.

Monsignor Martinelli is pro-general of the Augustinians throughout the world, and the order of which he is the head claims an antiquity of 600 years.

The delegate was accompanied by Mgr. Baretti, auditor of the papal delegation, and Rev. Father John D. Hickey, O. S. A., provincial of the Augustinians of this province, who was summoned to Rome soon after Mgr. Martinelli was appointed to succeed Mgr. Baretti.

At noon the tremendous strain of excitement in wheat exhausted itself and the cessation of the trading and the great feature of the morning. The local feeling was still very much unsettled, however, and traders on every hand were alert to catch the least indication of a change in the market symptoms.

The contributed not a little to the reaction in prices. As an evidence of the market's activity it was estimated that up to 1 o'clock over 12,000,000 bushels had been traded in. There have been many entire days in past months when sales did not average 2,000,000 or 3,000,000.

ON THE ROBBERS' TRAIL.

Pursuit of Those Who Held Up the Union Pacific Train.

OMAHA, Neb., October 19.—It is believed that the scouts who are looking for the robbers who held up the Union Pacific train near Ogden Wednesday are close upon their trail. Chief Canada of the special service bureau received a telegram from one of the search party saying that he had good reason to believe something good would develop within a very short time. Another telegram was received that \$700 worth of checks and drafts had been found in a place where the registered mail pouches had evidently been opened. The robbers must have opened the pouches soon after leaving the train, for the drafts and other letters of no value to them were found in a cornfield not far from Union, some of the railroad officials are inclined to believe that the robbers after opening the mail pouches worked their way back to Ogden and are now in hiding there or in Salt Lake City.

Front Nips Mississippi Cotton.

GREENVILLE, Miss., October 19.—Frost yesterday morning sufficient to kill the top leaves of the cotton. At 9 o'clock the cotton fields looked as if they had been scorched. The stops the top crop absolutely in this section.

THE PANAMA CANAL.

Gen. Belin Arrives at Colon With 150 Laborers.

COLON, Colombia, October 19.—Gen. Belin, the Panama canal director, has returned here from Paris on the French steamer Germain. He brought with him, from the West Indies 150 laborers to work on the canal. The Panama canal director, who was unable to say how much, if any, damage was sustained.

Efforts have already begun to get her floated and taken to a dry dock for repairs. The tug D. S. Arnot is alongside pumping her out, and the steam lighter Octavara is taking out cargo.

BRYAN VISITS OHIO

He Made the First Extended Speech at Lima.

CAMPAIGNING GENERALS AT CANTON

One of the Most Enthusiastic Meetings of the Year.

CURRENT POLITICAL NOTES

TOLEDO, Ohio, October 19.—The buckeye

state, the home of his opponent, was again visited by William J. Bryan today. At 4:23 o'clock today the special car, bearing the party, was pulled out of Detroit, and 6:30 the city of Toledo, which some weeks ago gave the nominee such a hearty welcome, was reached. Here a crowd had gathered about the depot and outside the gates and cheered the nominee. At 7 o'clock he made three-minute platform speech at Perryburg, and another at Deshler a half hour later. Short speeches of less than five minutes were made by him at Ottawa and Leipsic Junction.

The train today was in charge of Daniel McConville, chairman of speakers' national bureau, and with him were W. W. Durbin, chairman of state central committee, and Grant Holliday, a member of the state executive committee.

At Toledo Mr. Bryan stepped out on the back platform and acknowledged the cheers and applause given him by a few appropriate words. He told the people that he must not cheer him so much, but should save their voices in order to make converts here and there on the way.

This advice provoked more cheers and applause. The speeches at Perryburg, Deshler, Ottawa and Leipsic Junction were of the same general tenor as those usually made by Mr. Bryan in his short talk-end platform speeches.

Shortly after 9 o'clock the first speech of any length was made at Lima, where for thirty minutes the nominee expounded free silver doctrine.

THE GENERALS AT CANTON.

An Enthusiastic Meeting Held in the Tabernacle.

CANTON, Ohio, October 19.—Major McKinley arose early and took a drive in the fresh air. He called on his guests of yesterday, the old veterans, at the railway station, just before the train left for Canton. The general's special train left Canton shortly after 8:30 o'clock this morning for a swing around eastern Ohio, and will conclude their Ohio tour tonight at Cleveland, entering Michigan from Toledo tomorrow morning.

There was freezing weather this morning, but the big tabernacle was crowded at 7:30, and flags and festoons and flowers made the scene a warm and brilliant one. The McKinley campaign was the theme of Walker and Sikes and Corporal Tanner made addresses. At their conclusion each of them was presented with a basket of flowers by the Canton Woman's Relief Corps Auxiliary to the G. A. R. The meeting was one of the most enthusiastic of the campaign.

Gen. Sikes, as he spoke in a low voice, sitting on a chair, said he was the democrat of the party, and there was no office in the government he would take, but he said the silver mine owners of America could make \$10,000,000 a year if the government would stamp free silver. He said that the silver mine owners had a fund of \$10,000,000, and that they were using it to corrupt the doubtful states there were any a few days before election.

THE SOLDIER CANDIDATES.

Generals Palmer and Buckner Have Accepted the Nomination.

CHICAGO, October 19.—General Palmer and Buckner left for Milwaukee and the northwest at 10 o'clock today. They will visit Omaha and probably Lincoln, Bryan's home city. They will come east through Iowa, and perhaps go to St. Louis. With only two weeks of active campaigning left the officers in the national democratic committee are more than ever anxious to get Palmer and Buckner are going to receive their full share of votes in every state before the election. The national committee indicates, the national committee says, that thousands of democrats who had intended to cast their votes for McKinley are now under the standard of the Indianapolis convention.

WATSON CONTRADICTED.

It Is Claimed That He Once Agreed to Fusion.

ST. LOUIS, Mo., October 19.—Chairman Roselle of the state populist committee has had his attention called to the recently published denial of Thomas E. Watson, populist candidate for Vice President, of a statement in the Lamar Letter, Roselle's paper, that he, Watson, favored the electoral fusion in this state.

Mr. Roselle has now given out a signed statement denying the statement. He emphatically said that Mr. Watson did, at his recent meeting in this city, in the presence of National Committee Chairman Washington Rankin, Head and General Watson, and J. B. Follette, say that the fusion as arranged, "was perhaps the best thing that could be done for the people, and no objection to fusion on electoral, giving him and the party adequate recognition.

Justice Peckham announced the decision of the court in the case of the Bear Lake Company against the Lewis and Clark Mortgage Trust Company, affirming the decision of the supreme court of the territory of Utah in favor of the first-named company.

A motion was made by counsel for the plaintiff to dismiss or affirm the decision in the case of Hargis, United States against Joseph Dunlop of Chicago, which was set for the second Monday in December. Dunlop is a newspaper proprietor who was convicted of sending obscene matter through the mails, and has appealed to the supreme court.

THE A. P. A. CIRCULAR

It Is Now Being Sent Out From Headquarters in This City.

It Dwells Principally Upon a Letter of Mr. Bryan to Mr. Beatty.

The A. P. A. circular attacking Bryan, mentioned exclusively in The Star last week, has been printed, and is being sent out from the supreme headquarters here. The supreme officers, when asked for a copy of the circular today by a Star reporter, declined to give it, and stated that all work of that kind was secret and could not be made public. They stated that even if it was not secret it would be discourteous to make it public in advance of its receipt by the A. P. A. councils. Every council in the country will receive a copy of the circular, and it is expected to cut a big figure in the election, especially in doubtful states. In Maryland, for instance, it is hinted that the circular is expected to solidify the A. P. A. vote in favor of McKinley. The vote of the order in that state, however, is even now said to be practically sold for Bryan.

The contents of the circular were given substantially in The Star last week. The facts then given were that the circular, as will be ascertained when the circular is made public, it is said now it may not be made public at all, unless it leaks out without the knowledge of the officials of the order.

The circular is being sent out under the name of the order, which makes it a secret document, as much as any of the secret work of the order.

The principal portion of the circular, or that which the officials of the order are most anxious to keep secret, is a letter which Mr. Bryan wrote Mr. Beatty, a Washington A. P. A. giving his views on the order and on the Junior Order of American Mechanics. Mr. Bryan disclaimed membership in either, and said he was not a member of either.

While the order in Maryland is said to be anything but united, the circular is said to be fighting ex-Representative Mudd, the republican nominee in the fifth district. He is a Catholic and everything possible is being done against him.

Whether Chairman Butler has seen the circular or not, it is well understood in political circles that all the targeting will be going on now with Watson is for the purpose of making him rewrite his letter of acceptance or modify it. The letter is said to be full of pepper, and the silver managers are said to be overhauling it.

It is said that the circular is being sent out to the public as it was written, and that it is being sent out to the public as it was written, and that it is being sent out to the public as it was written.

It is believed that if Watson's letter goes to the public as it was written, it will create a sensation. To offset it or to prevent it doing too much harm, the populist managers of the national committee will be upon the alert to practically repudiate Watson. It is further believed they will do this, if necessary. There has never been any love lost between Watson and Chairman Butler, and it is known that Watson is being hunted for.

It is said in well-circled circles, despite the fact that the circular is being sent out to the public as it was written, and that it is being sent out to the public as it was written, and that it is being sent out to the public as it was written.
